About

A UI designer, that has a foundation in art and design. Experience and passion for digital design and interfaces along with skills in color theory, typography, and iconography.

Collaborating and seeking feedback from fellow UI designers has provided valuable insights into understanding both business objectives and user requirements. Skilled in transforming ideas into user-friendly digital products that are not only functional but visually appealing. Excited to join a team that shares a passion for creating and improving user experience.

Education

2023 -
2024

● CareerFoundry

UI Design Program Certificate

- Intensive project-based training program with a focus on “Intro to UI Design”, “UI Immersion”, and “Frontend Development for Designers”

Experience

● Christ United Methodist Church

Graphic Design | December 2023

- Designed a custom logo for a church sermon series. The design served as a visual representation of the topic explored during the sermon series.

● Black Duck Family Outfitters

Logo Design | July 2023

- Developed a logo for a family startup, working closely with the founding members to incorporate meaningful elements into the design. The process resulted in a visually appealing and meaningful brand mark.

UI/UX Projects

● EZ Eating

UI/UX Designer | April 2023 - July 2023

- Developed a recipe app by emphasizing a clean and organized layout for easy navigation using integrated features like step by step instructions, adjustable serving sizes and allergen filters making the app an essential tool
- View project here: [EZ Eating](#)

● Hidden Gems

UI Designer | July 2023 - August 2023

- Designed a cross-platform movie/TV show finder app using integrated features such as a subscription filter and “gem finder” which allows users to discover movies or TV shows by selecting their preferred genre
- View project here: [Hidden Gems](#)
